Subject: West Calumet Housing Complex - Water & Sewer Termination Quotes
Attachments: Quote Tabulation - 17.1151.7.3 - West Cal Water & Sewer Terminations.pdf

Good Afternoon Tia, Gentlemen:

Attached, please find the Quote Tabulation for the Water and Sewer Terminations at West Calumet. This work is for the cutting and capping of the water main into the complex and the plugging of the sanitary sewer outfall exiting the complex. The termination of the sewer and water to each structure was included in the demolition scope of work. Only one contractor submitted a proposal and it was below our estimated cost for the work.

By tomorrow afternoon I would like to have Amereco's review of all Bids and Proposals completed. To keep with the project schedule, the work will need to be awarded by the Housing Authority Board at their next public meeting – Tuesday, February 20, 2018 (next week). The contracts are:

- Demolition
- Asbestos Removal & Freon Recovery (three buildings)
- Site Security
- Security Cameras
- Water and Sewer Terminations

Bruce, Tom: Please let me know what you need from us prior to the ECHA awarding the contracts next week.

Sincerely,

John Blosky, CHMM
